**8<sup>th</sup> June 2019**

**Renault 4     \$3,500**

Rare early 3-speed Renault 4 project car for sale. The car is complete and comes with \$1500 worth of recently purchased new parts imported from Europe. Engine runs but needs a new fuel pump fitted, which is included in the spare parts.

**1952 Holden FX Sedan \$34,990**

This 215 FX Holden is believed to be first registered 11/7/1952 by McConville Motors Ltd. (Holden Dealership in Alice Springs) and won in an army ticket lottery in Alice Springs by the late Ena Hamilton of Alice Springs. The original registration number is NT903 (which I still have the original plates) and was insured at the time for the sum of £1,050. I have included in the photos the original insurance certificate when purchased and I have nearly all the registration certificates up to 1993. A very good, original example! Has been in a private Holden dealer collection for more than 25 years. Upon a hoist inspection, this FX Sedan appears to have all original sheet metal with no previous rust repairs to the whole floor areas and sub frame chassis. This FX Sedan would suit someone looking for an original daily driver/business promotional vehicle or museum display.

## 1985 Holden Gemini \$8,995

3 speed Auto, 67,000 k's

## 1955 Chevrolet 3100 Ute \$66,990

4 Speed manual, V8 Engine

## 1970 MG Midget \$10,750

Purchased by us in Dec 2007. Electrics, motor, running gear and interior all A1. Twin SU Carbies - she (Dolly) starts first turn of the key :- ) Tyres will need replacing soon..... Interior completely redone in Dec 2014 - Airline leather seats and top quality trims. There is a "Top off" tonneau cover in beige. The folding roof is in mechanically sound. The vinyl windows are a bit tired. She has been kept in a closed shed all her life - body has not deteriorated since we bought her.
